

Farm-to-table fresh experience with every spoonful of yogurt

Every bite begins with the hard work of over 200 family-owned dairy farms that create the Westby Cooperative Creamery. As one of the oldest farmer-owned cooperatives in the United States, our farmers are the original conservationists and environmentalists committed to conserving our natural resources for today's efficiencies and tomorrow's productivity. For over 100 years our farmers have demonstrated extensive agronomic knowledge and animal care by converting natural resources into fluid-milk to produce the highest quality yogurt for consumption and nutrition. The yogurt is always produced in small batches and made with only the finest ingredients such as cane sugar, real vanilla bean extract and other natural ingredients. Our farmers share the philosophy of ensuring the best welfare for the cows by producing only rBST-Free, grade A milk. No hormones are used in our dairy cows. Perfect Parfait yogurt contains live cultures, is kosher and Gluten Free with no artificial flavor.

SUPC	Description	Pack/ Case
7004549	Low Fat Creamy Vanilla	2 - 14 lb Bags
